

International Neurourology Journal

pISSN 2093-4777 • eISSN 2093-6931 • www.einj.org

Volume 19 • Number 3 • September 2015

Published on 30 September 2015

Aims & Scope

The official journal of the Korean Continence Society, Korean Society of Urological Research, Korean Children's Continence and Enuresis Society, and the Korean Association of Urogenital Tract Infection and Inflammation.

The International Neurourology Journal (Int Neurourol J, INJ) is a quarterly international journal that publishes high-quality research papers that describe the most significant and promising achievements in all fields of science and technology, as well as clinical neurourology.

Thus, we welcome valuable basic research articles outside as well as within the scope of neurourology and thereby accelerate the introduction of translational watershed developments in neurourology as soon as possible. In the editorials, urologists will present their perspectives on these articles. The original mission statement of the INJ was published for the first time on October 12, 1997.

Abstracted/Indexed In

Science Citation Index Expanded (SCIE, Web of Science), Scopus, PubMed, PubMed Central, KoreaMed, KoreaMed Synapse, KoMCI, WPRIM, WorldWideScience.org, DOI/Crossref, EBSCO, and Google Scholar.

Subscription Information

Korean Continence Society will send INJ for free to some relevant individuals and institutions. Full text is freely available from: <http://www.einj.org>. To order a subscription to INJ, please contact our editorial office.

INJ is an open access peer-reviewed journal and launched in 1997. All articles published in INJ will be immediately and permanently free for everyone to read and download. All articles are distributed under the terms of the Creative Commons Attribution Non-Commercial License (<http://creativecommons.org/licenses/by-nc/3.0/>) which permits unrestricted non-commercial use, distribution, and reproduction in any medium, provided the original work is properly cited.
